Aintree Davenhill Medium Term Planning

Voor Group: 4

Recognise and use factor pairs and commutativity in mental calculations

Recap mental division strategies (halving, dividing by 1, partitioning, related facts)

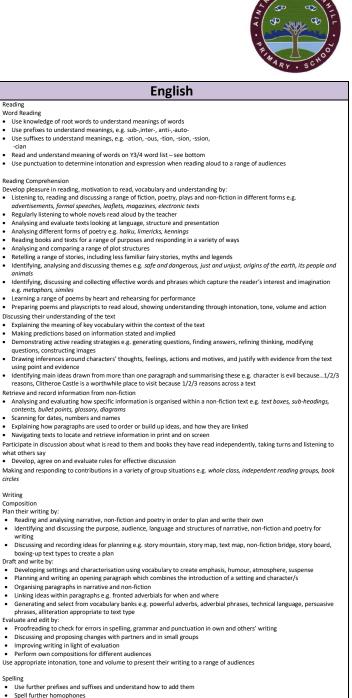

Select a mental strategy appropriate for the numbers involved in the calculation

multiplying together three numbers

• Recap mental multiplication strategies: compensation, partitioning (incl. doubling), factor pairs, multiplying by 0 and 1,

Multiply two-digit and three-digit numbers by a one-digit number using formal written layout (grid method)

Torm: Summer 1

Spell further homophones

· Spell words that are often misspelt

Use the first three letters of a word to check its spelling in a dictionary

Write from memory simple sentences, dictated by the teacher, that include words and punctuation taught so far

	In this activity the children will make their own blockbuster. They will learn all about filming techniques and storytelling skills. Can you write a script? Can you create a storyboard? Can you master basic filming techniques? Can you edit video clips? Can you edit video clips? Can you create and add music to a film? (IT) I can use various video techniques to create a film. (IT) I can plan my film using a storyboard.

Inspired by the Rainforest To understand starting points of a design process Children will describe images and objects using art vocabulary. Children will select images that interest me to draw. Children will gather images, shapes and colours together, identifying a mood/theme. One Picture, Four Views To explore techniques to develop imagery. Children will discuss the inspiration for an artist's work. Children will choose interesting sections of one picture to draw. Children will use materials and tools to show colour and texture. Creating Patterns To explore using a textile technique to develop patterns Children will discuss the work and patterns created by William Morris. Children will create a pattern using a drawing. Children will develop a pattern using inspiration taken from research. Repeating Patterns	Samba and carnival sounds and instruments (Theme: South America) Introduction to Samba To recognise and identify the main features of samba music To know what samba music is and where it comes from To understand why samba music is used To identify the main features of samba music Pulse and rhythm To understand and play syncopated rhythms To play on the off beat To recognise the on beat To play on the off beat To play a syncopated rhythm Samba rhythms To play a syncopated rhythms as part of a group To play in time To hold own part To play a syncopated rhythm Composing a break To compose a basic rhythmic break To play a syncopated rhythm
	To understand starting points of a design process Children will describe images and objects using art vocabulary. Children will select images that interest me to draw. Children will gather images, shapes and colours together, identifying a mood/theme. One Picture, Four Views To explore techniques to develop imagery. Children will discuss the inspiration for an artist's work. Children will choose interesting sections of one picture to draw. Children will use materials and tools to show colour and texture. Creating Patterns To explore using a textile technique to develop patterns Children will discuss the work and patterns created by William Morris. Children will create a pattern using a drawing. Children will develop a pattern using inspiration taken from research.

	Children will identify where a pattern repeats.	Samba performance	
	Children will create a repeating pattern. Children will develop a pattern by adding extra detail. To p		
	Fabric Design	To play at the correct time within a group To perform a break with accuracy	
	To understand how art is made for different purposes. Children will recognise and compare different methods of creating printed fabric. Children will evaluate my patterns to consider successes and improvements.	Spanish	
	Children will consider how my designs could be used for a product.	Listening Listen attentively and understand instructions Recognise and respond to sound patterns and words	
		Listen and respond to simple rhymes, stories and songs Listen attentively and show understanding by joining in and responding Listen for specific words and phrases	
		Listen for sounds rhyme and rhythm Follow a short familiar text listening and reading at the same time	
		Speaking • Speak with increasing confidence • Perform simple communicative tasks using single words, phrases and short sentences	
		Make links between some phonemes, rhymes and spellings, and read aloud familiar words Recognise questions and negatives and politeness conventions Ask and answer questions on several topics	
		Imitate pronunciation and intonation so that others can understand Memorise language and present ideas and information e.g. a short presentation about self / role play	
		Reading Respond to written language from a range of sources Appreciate stories, songs and poems in the language	
		Recognise some familiar words in written form Read and understand a range of familiar written phrases Follow a short familiar text listening and reading at the same time	
		Make links between some phonemes, rhymes and spellings Apply phonic knowledge of the foreign language in order to decode text Read some familiar words and phrases aloud and pronounce them accurately	
		Begin to use a dictionary to look words up and find meaning Use cognates and familiar language to help deduce meaning	
		Writing Experiment with the writing of simple words Write simple words and phrases using a model	
		Write some phrases from memory Develop an awareness of sound spelling link to be able to write with increasing accuracy from memory Grammar	
		Nouns Gender Singular and plural forms	
		Definite and indefinite article Develop an awareness of sound spelling link to be able to write with increasing accuracy	
		Recognise different word classes e.g. nouns, verbs, adjectives Personal pronouns I, you, it, they Recognise and use high frequency verbs	
		Question words Develop an awareness of the place of the adjective in the sentence Develop an awareness of adjectival agreements	
		Simple adverbs of time (time phrases including o'clock) Develop an awareness of word order Apply knowledge of language rules and conventions when building short sentences

Rounders To hit the ball in different directions. To run between the posts and avoid getting stumped out. To intercept the ball using one hand.	Relationships To identify the qualities of a good friend To understand a growth mind-set and how it can affect us	L2.9 What can we learn from religions about deciding what is right and wrong? This investigation enables pupils to think about guidance that people follow to help them live their lives. It starts off by looking into the Golden Rule and how it is seen in Christianity, Humanism and Judaism. Pupils then look at guidance for living	
To underarm bowl, abiding by the rules of bowling. To play the role of backstop in a small game. The rounders scoring system and using it in a game.	To understand rights in a friendship and to explain why it is important to know these rights To understand responsibilities in a friendship and explain why it is important to know these responsibilities To understand healthy friendships and saying no To explain how to keep your mind healthy	from all three of these worldwews, examining how Christians, Humanists and Judaishi. Pupils their book at guidance for inviting from all three of these worldwews, examining how Christians, Humanists and Jewish people might decide what is 'right'. The unit moves on to look at teachings about temptation in Christianity and Judaism, helping pupils to think about what religious stories show about temptation. Finally, pupils investigate the life of a religious figure, looking at how teachings from religion may affect the actions of a believer.	
Gymnastics 1 To perform a 6-element sequence that uses changes in speed and direction. To use the STEP principle to create and perform a partner sequence.		Pupils will: Recall and talk about some rules for living in religious traditions (B2).	
To take weight on our hands, showing control. To develop a sequence using compositional ideas, e.g. pathways To co-operate as a group to refine a short sequence. To compare and judge sequences.		 Find out at least two teachings from religions about how to live a good life (C3). Give examples of rules for living from religions and suggest ways in which they might help believers with difficult decisions (B1). Make connections between stories of temptation and why people can find it difficult to be good (A2). 	
		 Make connections between stories or temptation and why people can find it difficult to be good (AZ). Give examples of ways in which some inspirational people have been guided by their religion (B1). Discuss their own and others' ideas about how people decide right and wrong (C3). Explain some similarities and differences between the codes for living used by Christians and the followers of at 	
		least one other religion or non-religious belief system (B3). • Express ideas about right and wrong, good and bad for themselves, including ideas about love, forgiveness, honesty, kindness and generosity (C3).
